Decisions

Loss and Gain

Questions for Discussion:

1. Have you ever made a decision to do what is right, knowing it would cost you in the end? If so explain to the group what you lost.

2. In retrospect what did you gain? Was it worth it? If so, why?

3. How was Lot's choice short-sighted? What should he have done?

Reflection Question: Recall the last time you made a selfish choice, a choice that ran contrary to truth. What did it cost you?
